ALBUQUERQUE, N. M.

TELEGRAPHIC

Gen. Garfield thinks Rosecrans has Gone Back on Him.

The Mails to Silverton Stopped for the Past Three Weeks by the Weather.

Why the Government Does not Invest its Surplus Capital.

A Sixty-Five Thousand Dollar Incendiary Fire in Denver, Colorado.

New York, October 21.—The Herald's Cleveland special says: A gentleman who has visited Mentor relates that Garfield, in conversation with an ex-army officer, and formerly a member of Rosecrans staff, expressed his surprise that Rosecrans should have written the letter he did regarding him. The two had always been on good terms, and just before the Chicago convention Garfield went to the patent office and arranged for the granting of certain favors which Rosecrans had been very desirous of getting, and which he thought would set him free of trouble. Said Garfield: "I did not receive the papers that were granted to 'Rosy' till after the Chicago convention, and I then forwarded them to him with a polite note and received a letter of thanks. Later I heard from Rosecrans regarding his party principles which he said were Democratic, and he asked that I should not regard it as any slight on me personally and for whom he had the highest regard, but that he should vote for Hancock. I replied that I never let politics interfere with my social or other pleasant relations, and I should not feel offended in the least in his voting for a candidate he thought fit to vote for. Soon after I learned Rosecrans had said severe things of me, and when called to task of his former condemnation of me, had replied: 'Many a man had committed deeds. During the interval between his first praise criticism of me for seventeen years, I should have sent him to the penitentiary.'"

Did he really do that, asked the officer, who was informed?

Yes; replied Garfield in tones of indignation, and after his former protestations of friendship, and what I had done for him as a friend, I felt as if I could scarcely forgive him. I can think well of 'old Rosy' for services for his country, but I certainly cannot commend the acts of the present 'Rosy' when they are so contrary to one's sense of what is honorable.

At a meeting of the Tammany Hall committee on organization, John Kelly presiding, Gen. Spaulding denounced the Republican candidate for President and spoke of him as a free trader, an enemy to the working men, and by other titles. He also said that the Chinese are coming here from China and Japan and that they already have all but a monopoly of washing, and it would not belong under Garfield's rule until they would monopolize other branches of business. Something should be done to prove to the people that Republicans are in favor of these yellow-faced, almond-eyed celestials. He moved that a committee be appointed to provide means to bring the facts in this matter before the country.

M. J. Sogerson called attention to the unprotected state of Democracy throughout the State of New York. He said he had been speaking in Ulster county for the past few days and judging from the state of the canvass there were things that struck me while I was in the interior of the state. The Republicans were well organized and supplied with campaign documents. The Democrats were, on the contrary, clamoring for documents, but for some reason or other they could get none. Tammany Hall, he thought, should take hold of the matter.

Mt. Vernon, Ind., Oct. 21.—A fire early yesterday morning destroyed a large portion of this place, causing a damage amounting to \$150,000 on which there is about \$75,000 insurance.

Washington, D. C., October 21.—In reply to the question, "why does not the treasury department use its accumulating silver and gold to liquidate the U. S. bonds which are matured or which may be paid at the option of the Government?" the treasury department says: "Under the resumption act there was accumulated a fund for the redemption of outstanding legal tender notes to the extent of about \$140,000,000, being about forty per cent of the amount of notes outstanding redeemable on demand. In addition to this it is necessary to have a small balance from which to pay the ordinary current expenses. This makes the total available cash in the treasury about \$155,000,000 though of course this amount varies as the expenses of the Government temporarily increase or diminish. Beyond that amount, however, there has been no permanent accumulation of money in the treasury. In fact the available balance to-day is a little less than that of a year ago. All the excess of receipts over expenditures during the last year have been applied to the reduction of the interest bearing debt of which there has been purchased with the surplus revenues, in the open market \$103,771,100, on which there will be a saving in each year of \$5,817,056 of interest. This method of purchasing bonds in open market was made necessary as there have been no bonds payable.

Paraguay, October 12.—Lima dates are to September 25th. The U. S. minister, Mr. Christiancy, has the following basis for the preliminaries of peace: Chili Peru and Bolivia will each elect three commissioners to discuss the conditions of peace to meet in the Peruvian Territory occupied by the Chilean army. The United States Minister is taken a part in the conference as a friendly mediator. The cultivation of tobacco is now free in Chili.

Six millions of dollars of paper money has been authorized to be issued by the Chilean treasurer.

The Bolivian congress has sanctioned a law authorizing the executive to mortgage or sell all National property, and the Municipalities are also authorized to proceed in the same way with the consent of the Government. The proceeds of such sale to be applied to the expenses of the war. Gen. Doza has been deprived of the rights of a Bolivian citizen, his inaptitude and cowardice having brought upon the country humiliation and disaster.

Holland, Mich., Oct. 21.—Late last night there came ashore, near Grand Haven, a lot of papers, jewelry, clothing and an insurance policy in the name of B. F. Sweet, Braidwood, Illinois. The wind is from the north this morning and is light. A large number of persons have gone out to search the shore between Sangatuck and Grand Haven. The body of a boy was found near Port Sheldon yesterday, and was identified as the oldest boy of John Osborne. A tug, supposed to be a Government tug, came down from Grand Haven about 11 o'clock this forenoon. When about eight miles out from our harbor she was signalled by a passing barge, and stopping, and as near as could be ascertained by the aid of a glass, lowered her boat, picked up something and then turned and went back toward Grand Haven. The barge went south.

San Francisco, Oct. 21.—Last night Geo. A. Wheeler went to the police station and confessed that he had murdered his sister-in-law, Della J. Tillson, at the Lading House, 233 Kearney street, and packed her body in a trunk. His statement was at once verified. The circumstances are remarkable. The deceased had been living with her sister and Wheeler, and the latter had subjected her to his desires. His wife was cognizant of the fact, but concealed the affair to avoid a scandal. Latterly a man by the name of Geo. W. Peckham, who became acquainted with the family at Cesco, Placer county, sought to marry Della. This created a jealousy on the part of Wheeler who, yesterday, while Della was sitting on his lap, choked her to death. Wheeler and family formerly lived in New York.

Denver, Colo., Oct. 21.—At a little past 2 o'clock this morning J. N. Estabrooks livery stable, on Holiday street, caught fire. There were nearly sixty head of horses in the stable which, together with a large and valuable stock of carriages, buggies, grain,

hay, harness, etc., were entirely destroyed. The loss is about \$65,000; insurance \$8,000. The fire is supposed to have been the work of an incendiary, as the private watchman of block while running to turn an alarm was fired at by some one hiding in the ally back of the stable. The Colorado Fire Insurance Company have offered a reward of \$500 for the capture of any incendiary. They lost nothing by this fire, but consider that a small expenditure in this manner will save a larger sum in future losses.

New York, Oct. 21.—Thomas Seiss, Ex-United States Deputy Marshal Johnstone and Christian Liebenher have been arrested on charges of conspiring to obtain fraudulently naturalization papers for Johnstone. Liebenher approached the man and asked him to procure witnesses who would swear to know him and a lot of other men, some of whom he wanted naturalized. Liebenher is held in \$10,000 bail; others in \$500 each. The man named Christian Liebenher made application for a mandamus to compel the inspector of election to register his name as a voter. Judge Lawrence rendered a decision that the relator has, by judgment of the Superior court, been a naturalized citizen of the United States, and that judgment cannot be attacked or impeached collaterally and certainly not by a board of election officers, who are ministerial officers and not a tribunal vested with power to set in review of the decision of a court of competent jurisdiction upon the question of the right of a relator to citizenship.

Del Norte, Col., Oct. 21.—No mail has been sent or received from Silverton on the regular route over the range since the storm, it being nearly three weeks since any communication has been had with that place. Nearly all the towns and camps in the vicinity of Silverton have an insufficient amount of supplies for winter and the roads are impassable. Three men are reported killed in a snow slide, but on account of the gross neglect of the mails no information is received except as rumor. Residents of many of the mountain towns will have to leave unless supplies can be transported before winter sets in.

S. W. Matthews, of the Rio Grande Company, was enthusiastically nominated in the Democratic convention to-day for Representative from this district.

New York, Oct. 21.—Henry Hillard and others associated with him, recently purchasers of the Seattle & Walla Walla road, have, to-day, closed a contract with John Roach & Son for two coal and freight steamers of the most approved modern pattern. They will be 335 feet long and have a carrying capacity of 3,000 tons. They are expected to reach the Pacific coast by summer and be employed in transporting coal from Puget Sound to San Francisco.

Paris, October 21.—Inspectors visited the former Jesuit establishment at Aimeins and found there thirty Jesuit fathers, previously professors of the same college. The Franciscan Friars at Avignon have bricked up the door of their monastery. They are well supplied with provisions. The president of the tribunal has declared himself incompetent to hear the suit of the Carmelites against the Prefect to recover possession of their convent.

London, Oct. 21.—Steps are being taken to form an influential committee of Liberals to strengthen the hands of the government in dealing with the disorders in Ireland, and urge the necessity for immediate measures for the protection of land prosecution. Sergeant Heron is already engaged by the Crown as one of the counsel for the prosecution of the land league.

San Francisco, Cal., October 21.—A dispatch from Victoria, British Columbia, says: The British steamship Hilton Castle, laden with eighteen hundred tons of Wellington coal for the California market struck a reef about eight miles south of the harbor at 11 o'clock last night during a dense fog. At last reports she was in a dangerous condition.

New York, Oct. 21.—The insurance underwriters convention to-day adopted a resolution declaring that the insurance companies and policy holders interests are identical, and that all legislation hostile to the former is equally hostile to the latter. They deprecated all such legislation as ill advised and uncalled for.

Chicago, Oct. 21.—Miss Pineo won the 20-mile race at Jockey Club Park this afternoon after an exciting and well-contested trial, beating Miss Jewett by a nose; time, 56:12, which was a good record considering the conditions. Fannie Louise Buckingham has challenged both ladies to a race against her and they have accepted the event to come off shortly and be for \$1,000 each.

Chicago, Oct. 21.—An Inter Ocean Washington dispatch says that ex-Secretary Bristow is confident that the Republicans will carry New York. They need only keep quiet and take advantage of their opponents blunders. Information received from California to-day states that a wonderful change has come over that state since the October elections.

Washington, Oct. 21.—United States Attorney Johnson, of Colorado, having telegraphed here that Agent Berry, if arrested, is in danger of being lynched unless sufficient escort is furnished, the Interior department has requested the War department to furnish necessary military protection in case Agent Berry is arrested.

Chicago, Oct. 21.—Arrangements for the grand street parade of the industrial classes in this city next Saturday afternoon in favor of the election of Gen. Garfield, are progressing favorably. It will be one of the most imposing demonstrations ever witnessed here.

New York, Oct. 21.—In the Episcopal convention a message was received from the House of Bishops nominating Rev. John Hanston, Ecclesiastical of Northern New Jersey, Missionary Bishop of Washington Territory.

Madison, Ind., Oct. 21.—Geo. Mercer, while firing a salute on the arrival of Gov. Porter, at noon to-day, had both arms blown off and his eyes blown out by a premature discharge of a canon. He will probably die.

Madison, Ind., Oct. 21.—Mrs. Read while sitting in front of a fire place, nursing a young baby, was seized with a fit and threw the child into the fire, fatally burning it.

Chicago, Oct. 21.—Bets are even in New York that the State will give 10,000 Republican majority.

WANTED

WANTED.—One or two furnished rooms for a lady. Enquire at this office.

WANTED.—A good lively boy at Herberts drug store.

WANTED.—A nurse girl. Apply to Mrs. Chas. Hild.
